1. INTRODUCTION

ESTABANELL INNOVA, S.L. is a Spanish company belonging to the Estabanell Group with registered office at Calle Rec, numbers 26-28, Granollers (08401), Barcelona, registered in the Mercantile Registry of Barcelona, in Volume 49082, Folio 60, Page B-607004, with N.I.F. number B-56.806.219 ("**Estabanell Innova**")

Estabanell, based in Granollers (Barcelona), is a leading energy group in Catalonia that carries out its activity in all phases of the life of energy, ranging from the generation of renewables, through electricity distribution and up to the commercialization of energy and energy efficiency services. This activity is complemented since 2015 with telecommunications services and the commercialization of other solutions for the home and business, with a vision of being a comprehensive wellness provider.

Its more than 100 years of experience in the field of energy have made it one of the most solid companies in the sector. Around the commitment to 'self-consume' hydraulic energy (100% green and with zero emissions) to feed the looms of its textile factories, the origin of its business activity at the beginning of the twentieth century, the electricity distribution business was added naturally – Anell –, which currently manages more than 1,600 kilometers of network and more than 58,000 supply points in several regions of Catalonia.

Estabanell, which has been generating green energy since the beginning of the 20th century, manages 6 small hydroelectric power plants on the banks of the Ter river through its renewable generation company and, at the same time, promotes the installation of more than twenty photovoltaic solar parks distributed throughout the Catalan territory, adapted to its environment and on a small and medium scale, with a maximum of 5 MW of power or, in other words, the equivalent of the approximate consumption of about 3,500 homes per year. Its first photovoltaic solar park is in the municipality of Caravaca de la Cruz, in Murcia, and is generating the equivalent of the annual consumption of 3,700 residential customers.

The Estabanell Group is made up of more than two hundred (200) professionals and collaborates in more than four hundred (400) social, cultural and educational projects in the area.

The Estabanell Group is comprised of the following eight (8) companies:

- ESTABANELL I PAHISA ENERGIA, S.A.
- ESTABANELL IMPULSA, S.A.U.
- ESTABANELL GENERACIÓ, S.L.
- ESTABANELL I PAHISA, S.A.
- INNOVER INSTAL·LACIONS DE NOVES ENERGIES, S.L.U.
- INSTAL·LACIONS RELSA
- ENERGY IN THE CLOUD, S.L.

- ESTABANELL INNOVA, S.L.

Through Estabanell Innova, ERIA has been created, the new *Corporate Venturing* vehicle whose main objective is to contribute to the positioning of the company as an energy and telecommunications group of the future, leading a rapid response to the challenges and market opportunities that identify its different businesses and that favor a positive impact on society. Eria will therefore serve to channel collaboration with the entrepreneurial ecosystem, promote projects with third parties and, beyond internal innovation, reduce the time it takes to develop and market new technologies and solutions as much as possible.

Among the programs that Eria will run is an acceleration program for *startups* in *the pre-seed* and *seed* stage to help them grow and reach the next level (indistinctly, the "**Program**" or the "**Acceleration Program**").

This document contains the legal bases (the "**Bases**") to participate in the first edition of the call for the ERIA Acceleration Program that will be held during the period 2024-2025.

It is important to note that the fact of applying for admission to ERIA's Program implies knowledge and acceptance of these Terms and Conditions.

2. MISSION, VISION, VALUES AND OBJECTIVES

MISSION

ERIA's main mission is to lead and promote *Corporate Venturing initiatives* that connect the Estabanell Group with the dynamic startup ecosystem. At ERIA we aspire to create a collaborative space where the different businesses of the Estabanell Group collaborate fluidly with disruptive companies, fostering a culture of continuous and innovative adaptation with the goal of improving people's quality of life.

VISION

ERIA's vision is to become a catalyst for innovation within the Estabanell Group. We are inspired by all the knowledge and heritage of the parent company, aspiring to be at the forefront of the evolution of the industry in an agile way, with disruptive technologies and new business models, to help us achieve the vision and mission through strategic collaborations with the entrepreneurial ecosystem.

VALUES

Our values are focused on experience, commitment, transparency and support.

OBJECTIVES

At ERIA we want to promote open innovation to incorporate new technologies, services and disruption in each of the companies of the Estabanell Group. For this reason, we mainly pursue three (3) objectives:

- Incorporate new products, services and disruptive technologies thanks to entrepreneurs, *startups*, technology centers, among others. In short, we seek to incorporate innovative agents in each of the different businesses of Grupo Estabanell.
- Foster an innovative and entrepreneurial culture internally.
- To position Grupo Estabanell as a business group at the forefront of technology and innovation.

Likewise, at ERIA, with this Acceleration Program, we intend to achieve the following objectives in an additional way:

- Promote innovation in the field of electric power and related technologies, identifying and supporting *startups* that develop innovative solutions in this field.
- Encourage the development and adoption of new technologies that can improve energy efficiency, resource management, sustainability and digitalisation in the electricity sector.
- Establish collaborative relationships with entrepreneurs and startups, providing financial support, mentoring, and resources to help them grow and develop their projects.
- Identify emerging business opportunities in the energy sector and explore possible collaborations or strategic alliances with startups that are developing relevant solutions.
- Facilitate the creation and development of new products and services that can complement Grupo Estabanell's current commercial offer, providing innovative solutions to its customers and users.

3. PARTICIPATION REQUIREMENTS

In this first edition of the Acceleration Program, we are looking for national and international companies of recent creation, i.e. *pre-seed and seed* startups in the energy, telecommunications, and *Smart Home* sectors to boost their growth and innovation.

These startups are required to be made up of a minimum of two (2) founders/CEOs with a *full-time* dedication, who enjoy an innovative personality, present effective solutions, and firmly believe in their project as well as have a desire to grow and be helped to improve.

On the other hand, the promoter or natural person representative of the project must be of legal age and must have the legal capacity to be bound. You may not be an employee, administrator, or partner of the Estabanell Group at the time of application.

Likewise, project promoters may not apply for admission to the Acceleration Programme for several projects for the same call, either acting individually or jointly with third parties.

The promoters of the project cannot have been convicted by a final judgment of intentional crimes.

Finally, the project company must be legally constituted and duly registered in the corresponding registry and must not be subject to legal cause for dissolution.

In order to participate in this Program, the *startup's* project must offer a novel solution, as well as face challenges in the electric power, telecommunications and Smart Home sectors.

- Electric energy: at ERIA we are looking for innovation agents to help *startups* face the future challenges of the energy sector throughout its value chain. At ERIA we are aware that the sector is immersed in significant challenges, especially arising from the energy transition and decarbonisation. It is for this reason that at ERIA we look for innovative projects on demand flexibility, renewable energies, electrification of mobility, storage, digitalisation and smart grids or integrated home energy solutions (EaaS).

- Telecommunications: telecommunications offer a great space for innovation, in which many *startups* are detecting new opportunities, new services, new products. For this reason, at ERIA we do not want to miss anything that happens in the ecosystem and we are looking for those innovative agents that offer a differential and innovative value proposition in this sector in technologies such as Artificial Intelligence ("AI") applied to network management, customer service or the improvement of the user experience. AR/VR technologies applied to entertainment, among others, or comprehensive *Smart Home solutions*.

Participants who do not meet the established requirements, either initially or during the course of the Program, may be excluded from the Acceleration Program, thus losing any possibility of receiving the services established in these Terms and Conditions and without the right to file claims with ERIA.

Likewise, participating *startups* must provide truthful information when registering for the Acceleration Program. Those *startups* whose data is false, incorrect, or incomplete will lose the opportunity to participate and receive services, without prejudice to the responsibilities that may arise from these actions, which will be assumed in their entirety by the participant, leaving ERIA unharmed.

By enrolling in the Program, participants fully and unconditionally accept the terms set forth in these Terms and Conditions.

ERIA reserves the right not to accept or terminate participants from the Program without prior notice, if it considers that they act fraudulently, abusively, contrary to the spirit of the Program or the law, violating the rights of third parties and/or good faith. Participants will be fully responsible for these actions, and ERIA will be released from any liability.

In addition, ERIA may terminate any participant whose actions, or those of someone related to them, may damage ERIA's reputation or goodwill. Likewise, it reserves the right not to accept participants if it considers that they are not responding adequately to the challenges posed or for any other reason that it deems appropriate.

4. ACCELERATION PROGRAM SCHEDULE

The corresponding milestones and dates to be taken into account for the 2024/2025 call of the Program are as follows:

4.1. HOME OPEN CALL

The registration period will begin from the publication of these Terms and Conditions on March 14, 2024 and will end on April 29, 2024 at 23:59 (GMT+1).

Applications for admission received after the date will not be considered.

4.2. REVIEW AND SELECTION PERIOD

The review and selection period for projects will run from the deadline for submitting applications until May 6, 2024, when the projects selected to participate in the ERIA Acceleration Program will be published.

4.3. COMMUNICATION AND SIGNING OF THE CONTRACT

On May 13, we will formally announce the four (4) selected *startups* and the ERIA Startup Acceleration Program Participation Agreement will be signed between Estabanell Innova and the selected *startups* (the "**Contract**").

4.4. BOOTCAMP

At the start of the Acceleration Program, on a date to be determined in mid-May 2024, a Growth *Bootcamp* will be held in Barcelona for *accelerated startups*.

The *Bootcamp* will consist of two (2) days of face-to-face training where *ad-hoc content will be worked on* for the four (4) *selected startups*, with the participation of external experts and trainers.

4.5. ACCELERATION PERIOD

The Acceleration Program will have a minimum duration of four (4) and a maximum of six (6) months depending on the *startup*.

4.6. DEMO DAY

At the end of the Acceleration Period, in November 2024, the participating projects will be presented within the framework of a *Demo Day* in which the participating *startups* will present their projects to mentors, the ERIA management committee, potential clients, investors, *business angels* and relevant personalities from the entrepreneurial ecosystem.

5. PROJECT ANALYSIS AND SELECTION PROCESS

Once the deadline for submitting applications to participate in the ERIA Acceleration Program has ended, ERIA professionals and members will carry out a pre-selection of the projects submitted. From all those applications admitted in the call, we will select up to a maximum of four (4) projects to which we will grant the possibility of participating in the ERIA Acceleration Program.

6. SELECTION CRITERIA

For the qualification of the applications for participation in the Program, ERIA professionals will evaluate the projects taking into account the following criteria:

- Innovation and originality:
 - o We will evaluate the novelty and originality of the idea or solution proposed by the project.
 - o We will analyze how the project proposal differs from existing solutions, as well as its ability to generate value and attract customers in a competitive and constantly evolving market.

- Market potential: we will analyze the potential of the target market and the demand for the product or service offered by the project.

- Technical and financial feasibility:
 - o We will assess the technical and financial feasibility of the project, including the ability to develop and scale the proposed solution.
 - o We will positively evaluate whether the cost structure of the project is aligned with the revenue projections and with the economic and financial profitability of the project.

- Entrepreneurial team: we will evaluate the experience, skills and commitment of the entrepreneurial team to carry out the project successfully.

- Social or Environmental Impact: We will consider the positive social or environmental impact the project may have on the community or the environment.

- Degree of development: we will evaluate the degree of development of the project, from the initial idea to the prototype or minimum viable product phase.

- Business model: We will analyze the clarity and feasibility of the project's business model, including revenue generation and scalability.

- Compatibility with the objectives of the Program: we will evaluate the alignment of the project with the objectives and areas of interest of the Acceleration Program as well as the degree of adequacy to any of the proposed challenges.
- Ability to learn and adapt: we will assess the entrepreneurial team's ability to learn from mistakes, adapt to change, and take advantage of emerging opportunities.

7. ACCELERATOR PROGRAM CONTENT AND PROGRAM PHASES

The Acceleration Program we offer comprises a series of elements designed to enhance the growth and development of the beneficiary startup. Below, we will elaborate on the points mentioned:

- Board of five (5) mentors per startup: the selected *startups* will have access to mentoring sessions and monthly meetings with a *Board* of (5) specialized mentors. The *Board* will be composed of three (3) mentors from Aticco Lab, and two (2) from ERIA. This service implies that the team of mentors will work closely with the *startup* to provide guidance, advice, and support in key areas such as business strategy, product development, marketing, finance, among others. These mentors are experts in their respective fields and offer a wide range of knowledge and experience to help the *startup* overcome challenges and seize opportunities.
- Growth Bootcamp: The *Growth Bootcamp* is an intensive two (2) day program designed to boost startup development in a short period of time. During the *Bootcamp*, the *startup* will participate in a series of workshops, training sessions, and hands-on activities focused on key areas such as growth strategy, product development, customer acquisition, team management, among others. This *Bootcamp* provides the *startup* with the tools and knowledge needed to scale their business effectively.
- Sandbox to test the startup's technology within the Estabanell Group: The *sandbox* offers a safe and controlled environment where the *startup* can test and validate its technology within the Estabanell Group in real-world conditions before its market launch. This allows the *startup* to identify and fix potential issues or shortcomings, as well as optimize its product to meet customer needs and expectations.
- Possibility of doing a proof of concept: the service of choice and criteria of ERIA and Grupo Estabanell gives the *startup* selected to participate in the Acceleration Program, the opportunity to carry out a proof of concept of its product or service in collaboration with strategic partners or potential customers of the Estabanell Group.

This proof of concept allows the *startup* to demonstrate the value and viability of its solution in a real-world environment, which can help generate interest and support for future collaborations or investments.

- Access to energy and telecommunications know-how: the *startup* will have access to expertise in the energy and telecommunications sectors, allowing it to better understand the trends, challenges and opportunities in these markets, as well as identify potential synergies or areas of collaboration.
- Financial aid of up to €10,000.00 per accelerated startup: This financial aid provides additional financial support to the *startup* to cover operating expenses, product development, marketing, or other critical needs during the Acceleration Period.
- Be part of the Gellify and Aticco Lab alumni ecosystem: by being part of the alumni ecosystem, the *startup* will have access to an exclusive network of companies and entrepreneurs that have gone through the Acceleration Program. This offers opportunities for *networking*, collaboration, and continuous learning, as well as potential connections with potential investors or partners.
- Access to the Aticco Lab coworking: the projects of the selected *startups* will have two (2) fixed workstations in one of the *Aticco Lab coworking spaces*, including access to the rest of the Aticco Lab facilities under the usual conditions for the rest of the *coworkers*.
- Additional Perks offered by Aticco Lab to its community: Finally, the *startup* will also be able to benefit from a number of *additional Perks* provided by Aticco Lab to its community, which may include discounts on services, access to exclusive events, legal or tax advice, among others.

8. OBLIGATIONS OF THE *SELECTED* STARTUPS

The four (4) *startups* selected to participate in the ERIA Acceleration Program will have to comply with the obligations indicated in this section. In the same way, the selected candidates must accept the Terms and Conditions and sign the commitment to participate if they are part of the Acceleration Program and send it to ERIA within a maximum period of one (1) week from their admission.

On the other hand, ERIA may agree to withdraw from the Acceleration Program to *startups* that fail to comply with any of the commitments referred to in these Bases.

8.1. OBLIGATION TO PROVIDE ASSISTANCE

Startups must attend, either online or *online*, represented by at least two (2) of their founders/CEOs, the monthly Board *Meetings* with the mentors participating in the Acceleration Program.

Likewise, and without prejudice to the mandatory nature of monthly meetings with all mentors, individual meetings may also be held to be specified between the parties.

On the other hand, *startups* must attend, in person, the *Bootcamp* and the *Demo Day*, both held in Barcelona.

8.2. OBLIGATION TO ACCEPT THE CODE OF ETHICS AND GOOD PRACTICES

Startups must accept Grup [Estabanell's Code of Ethics and Good Practices](#) dated November 2023.

The selected projects and *startups* must do everything possible to achieve the objectives set out in the Acceleration Program, giving priority to the project. Those projects that do not meet the objectives of the Program will not be able to continue within the acceleration process.

Likewise, the participants undertake not to maintain direct or indirect links with other persons or entities whose activity may compete with the project.

9. ERIA RIGHTS

The *startups* selected to participate in the ERIA Acceleration Program recognize the following rights in favor of ERIA.

9.1. IMAGE RIGHTS

The *startups* participating in the Acceleration Program expressly consent that ERIA may use their image by any means and exclusively for corporate, advertising and promotional purposes, without any territorial or temporal limitation, and without generating any remuneration in their favor.

9.2. RIGHT OF FIRST REFUSAL OR PRE-EMPTIVE SUBSCRIPTION

The selected projects, at the time of signing the Contract that will regulate their participation in the Programme, will grant ERIA the right to participate on a preferential basis in the next round of financing of the project to be held. ERIA may subscribe to shares or shares of the project in these financing rounds on a preferential basis to other investors in the share capital.

10. PERSONAL DATA PROTECTION CLAUSE, INTELLECTUAL AND INDUSTRIAL PROPERTY RIGHTS

10.1. PROTECTION OF PERSONAL DATA

In order to ensure the security of information, Estabanell Innova applies different technical and organisational measures to ensure the appropriate level of security in accordance with the applicable regulations. In any case, Estabanell Innova will take appropriate technical and organisational measures, both when designing the data processing system and at the time of processing itself, to preserve security and prevent unauthorised processing. However, despite the diligent implementation of these measures, the user has to know that security measures on the Internet are not impregnable. Estabanell Innova is not responsible for the actions of third parties who, in violation of these measures, access the aforementioned data and information.

The personal data provided, as well as any updates thereto, will be managed by Estabanell Innova in accordance with the terms established in this clause.

Estabanell Innova considers the privacy of the people to whom such information is provided to be fundamental.

In this sense, Estabanell Innova undertakes to process the data in accordance with the applicable personal data protection regulations in force at all times. Specifically, Estabanell Innova will comply with the premises established in Organic Law 3/2018, of 5 December, on the Protection of Personal Data and Guarantee of Digital Rights ("**LOPDGDD**"), as well as those of Regulation (EU) 2016/679, of 27 April 2016, of the European Parliament and of the Council on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and whereby Directive 95/46/EC ("**GDPR**") and any other applicable corresponding regulations are repealed.

Based on this, Estabanell Innova informs about its Privacy Policy, in order to make users aware of the processing of their data, as well as the fundamental principles on personal data protection that it applies.

10.2. DATA CONTROLLER

Estabanell Innova, a Spanish company with registered office at Calle Rec, numbers 26-28, Granollers (08401), Barcelona, registered in the Mercantile Registry of Barcelona, in Volume 49082, Folio 60, Page B-60704, with Tax ID number B-56.806.219.

Contact of the Data Protection Officer: lopd@estabanell.cat

10.3. MAIN PURPOSES OF DATA PROCESSING

The personal data provided and collected, whether through the forms available on the website, emails and/or calls, will be used for the following purposes:

- a) Responding, attending to and managing queries, questions and/or requests (including managing your *curriculum vitae* for present and/or future selection processes, as well as registering as a user in the client and/or partner area and identifying you to give you access to our web platform;
- b) Provide our services in accordance with the legal notice;
- c) To guarantee the correct technical functioning of the website and, in the event that you authorise it, in accordance with the information provided in our *cookies policy*;
- d) In addition, Estabanell Innova may use the user's de-identified data, always preserving their anonymity, even after the end of the relationship, in order to use them within its support systems for decision-making and business management, as well as for the optimization of customer management systems; and
- e) Use them for any other purpose required or permitted by applicable law or for which you have consented.

10.4. LEGAL BASIS FOR DATA PROCESSING

The Bases for processing your personal data are: (a) the existence of a pre-contractual and/or contractual relationship with Estabanell Innova; (b) when it is necessary for the satisfaction of legitimate interests pursued by Estabanell Innova; (c) where you have given your consent; and (d) when necessary to comply with Estabanell Innova's legal and regulatory obligations.

10.5. DATA RETENTION PERIOD

The data obtained will be kept for as long as your relationship with us is maintained, and even after the termination of this relationship for the period necessary for the formulation, exercise or defence of claims, and legal and contractual obligations, always being duly blocked. In the case of the CVs received, they will be kept for a period of one (1) year from the moment they have been registered, after which they will be deleted.

10.6. RECIPIENT OF THE DATA COMMUNICATION

Depending on the purposes for which the personal information is collected, this information may be accessed by the following persons:

- Authorized personnel of Estabanell Innova or their representatives acting on behalf of Estabanell Innova subject to applicable data protection laws;
- To companies of the Estabanell Group, the personal data of customers for internal administrative purposes (you can see the list of companies of the Estabanell Group at the beginning of these Terms and Conditions).
- Regulatory authorities or other third parties in accordance with applicable laws.
- In the event of non-payment by the client of its services, Estabanell Innova may notify the Persons in charge of asset solvency and credit files, in compliance with the applicable regulations. You may also transfer the data to the competent authorities and bodies in compliance with the corresponding legal and tax obligations. The data relating to possible supply contracts will also be communicated to the Tax Administration for the purposes provided for in General Tax Law 58/2003 and/or Law 36/2006, on measures for the prevention of tax fraud. Likewise, by virtue of Royal Decree 897/2017, which regulates, among other issues, the figure of the vulnerable consumer, the personal data of these customers may be communicated to the bodies responsible for the protection of vulnerable consumers in order to implement the measures contemplated therein, as well as to any other Administration for the purpose that is legally determined.
- In the event that the customer gives his/her consent, Estabanell Innova may transfer his/her personal data to the companies of the Estabanell Group so that these

companies can send him/her commercial information by any means about the services and products that they market at any time, as well as to offer news, promotions, discounts, participation in raffles and surveys, and information about events or other activities related to or organized by these companies.

- Third parties (service providers who process information as data processors, under the instructions of Estabanell Innova). This is only after we have taken the necessary steps to ensure that we can share this information and have entered into the relevant contract for data processing, in accordance with the applicable data protection regulations.
- Third parties with whom we enter into business agreements that may be satisfactory to our customers as long as you have given us our prior consent.

Personal data may be processed outside the European Economic Area (the "**EEA**"). When processed outside the EEA, Estabanell Innova will ensure that this cross-border data processing is protected with the appropriate guarantees. These warranties may include:

1. Standard Contractual Clauses approved by the European Commission. These standardized clauses provide sufficient safeguards to ensure that the adequacy and security requirements set out by the GDPR are met; or
2. Certifications demonstrating that third parties located outside the EEA process personal data in a manner consistent with the GDPR. These certifications are approved either by the European Commission, a competent supervisory authority, or a competent national accreditation body in accordance with the GDPR.

10.7. RIGHTS WHEN PROVIDING DATA

The rights of Estabanell Innova when providing the data are as follows:

- Right to request access to personal data: you may ask Estabanell Innova if it is processing your data, and if so, access it.
- The right to request rectification if the data is inaccurate, or to complete the data that we have incomplete.

- Right to request the deletion of your data.
- Right to request the restriction of their processing: in this case we will only keep them for the exercise or defence of claims.
- Right to object to processing: Estabanell Innova shall have the right to process personal data, with the exception that they must continue to be processed for legitimate reasons or for the exercise or defence of possible claims.
- Right to data portability: in the event that the user wants their data to be processed by another data controller, Estabanell Innova will facilitate the transfer of their data to the new data controller.
- The right not to be subject to a decision based solely on the automated processing of your personal data.

If you have given consent for a specific purpose, you may withdraw your consent at any time, without affecting the lawfulness of the processing based on consent prior to its withdrawal.

To exercise your rights, please notify us in writing at Estabanell Innova, Reguera, 26-28, 08401 Granollers, Barcelona or send us an e-mail to: lopd@estabanell.cat.

If you have doubts about your identity, it may be necessary to provide a photocopy of your ID card or equivalent document that proves your identity and is considered valid in law. To do this, you can use the models and forms on the different rights available to the Spanish Data Protection Agency on its official website <https://www.aepd.es/reglamento/derechos/index.html>.

We inform you of your right to file a complaint with the Supervisory Authority, specifically, with the Spanish Data Protection Agency <https://sedeagpd.gob.es/sede-electronica-web/vistas/formnuevareclamacion/reclamacion.jsf>, and other competent public bodies for any claim arising from your personal data.

10.8. CONFIDENTIALITY

The professionals who work at Estabanell Innova and who have any type of intervention in the services provided to the user, are committed not to disclose or make use of the information to which they have accessed. The information provided by the user will, in any case, be considered confidential, and may not be used by others until those related to the management linked to their requests and the services contracted to Estabanell Innova, where applicable. In this regard, we undertake not to disclose or disclose information about the user's claims, the reasons for the requested advice or the duration of the

11. RESERVATIONS AND LIMITATIONS

Participation in the ERIA Acceleration Program implies knowledge and acceptance of these Terms and Conditions. The projects that are selected to participate in the 2024/2025 edition of the Acceleration Program will sign an individualized contract with Estabanell Innova through which their participation in the Acceleration Program will be regulated. The project will only be considered admitted to the Program once the Contract has been signed.

The mechanics of the call require that the data be provided truthfully and completely and that they be kept up to date thanks to the cooperation of the participants. If the personal data is false, incomplete or not updated, Estabanell Innova will be released with respect to the specific cases, the successful completion of the call and any consequences related to the above, ultimately reaching the non-declaration of beneficiaries of the promotion.

The *startup* expressly consents, and by the mere fact of participating, that Estabanell Innova may use its name for the purpose of making the winning project known to the rest of the participants and without generating any remuneration in its favor.

Estabanell Innova reserves the right to cancel this call, suspend it, or change any of its condition(s) if for technical reasons or any other nature beyond its control it is unable to comply with the normal development of the same, as stipulated in these Terms and Conditions.

Estabanell Innova reserves the right to cancel those projects whose representatives or promoters do not attend the different individual and group sessions or collaborate to obtain the maximum use of the resources made available to them, both human and material.

Estabanell Innova reserves the right to expel from the Acceleration Program all those *startups* that do not make good use of the furniture and facilities, as well as do not respect the established rules of coexistence.

Estabanell Innova will discard those participations that are abusive or fraudulent. In the same way, any abusive or fraudulent use of these Terms and Conditions by the participants will result in the automatic cancellation of the participants.

Estabanell Innova will not bear the costs of testing, testing, travel and accommodation of the participants to the place of the individual sessions, group workshops and any other activity in which the Program consists.

12. CONSULTATION AND RESOLUTION OF DOUBTS

To make inquiries or resolve doubts related to the Program or the presentation of projects, ERIA can be contacted via email at info@eriainnohub.com.
